Village Drinking Water Consumer Confidence Report is now available for you to read at the Village Office, posted around the Village, and on Village website (under construction).

Fire Hydrant flushing will begin July 2 until Friday July 11th.

This is done annually in order to remove sediment from lines, as well as fire hydrant maintenance.

If rust colored water is noted, just run your cold water tap outside, or in tub until clear.

Peace Poles Painted by Newton High School Art Students Installed at Monument Park

The new addition to Monument Park, (library parking lot), is a vibrant display of creativity and peace. Recently, several Peace Poles were installed at the park, each one carefully painted by the talented art students from Newton High School.

The project aims to spread a message of global unity, kindness, and peace in the heart of the community. The Peace poles will also double as banner holders for various events that happen throughout the year in the Village. Stop by and check them out!
